Comprehensive Solutions for Visitor Management

Security Guard In-a-Box | Visitor Management enables your company to keep track of all visitors entering and leaving your facilities providing a more secure environment. Lobby Track software, by Jolly Technologies, helps reduce wait times by notifying the host and keeping unwanted visitors out. In addition, users have the ability to:

- Register Visitors
- Check in or out by swiping magnetic stripe or scanning barcode
- Check Watch List
- Issue Badges
- Log Visits

This solution integrates seamlessly with pre-existing databases, providing lower entry cost and easier implementation.

Security Guard In-a-Box | Visitor Management is available exclusively at BlueStar!
